“It's quite difficult to portray the magic of Tsavo in just a few words... it really grips your soul. Tremendous contrast everywhere. Tsavo, in fact, has a greater biodiversity than any other place on earth. The more you know about nature, the more you can learn.”

OUR INSPIRATION

Our family has its roots in East Africa. We are passionate about Zanzibar and love the Island, the people and its spectacular natural environment. When we came to Zanzibar over 25 years ago and set foot on our world renowned beach, we decided to use our degrees from the Cornell School of Hotel Management to combine the highest standards in hospitality with the personalization and warmth of a family owned and run business reflecting the beauty, culture, exoticism and the uniqueness of Zanzibar. We are not a chain and we have no formula and.. no, we do not have a fleet of resorts in other Indian Ocean islands. We are here, in every sense of the word.

We did not choose our location by accident. We are located on a beautiful, peaceful beach chosen by Conde Nast Traveler as one of the top island beaches in the world. Of course, when we came, hardly any journalists or travel writers had ever visited our beach-we were true explorers, searching for the perfect spot. We are delighted that the most prestigious Travel magazine in the world approved of our choice!

We might be a little bit biased, but we really do feel that the South East coast gives visitors the chance to see and feel the real Zanzibar beach experience.

Zawadi is a private, intimate getaway beach retreat is just situated atop a cliff with a spectacular view of the Indian Ocean.
