THE SECRET TO MOROCCO IS IN THE DETAILS

Our specialty

The challenge of traveling to such a spectacular country is being able to get to know it deeply. With NUBA it is possible because you are not traveling on a “package” like every other tourist. Here, the trip is designed according to your likings, your interests, at your own rhythm, and, of course, with our special touch to exceed all of your expectations and turn your trip into a unique and magnificent experience from beginning to end.

On top of that, our guides are more than that; they're valuable vacation partners that will explain everything around you and will inclusively call your attention to things that may have gone unnoticed by your senses, making sure you don't miss anything. The secret to Morocco is on the details, and this is our specialty!

A sensorial adventure

You don't visit Morocco,
you live it, and you live it fully.

Can you imagine the taste of cultural fusion? Distinguished and recognized chefs prepare gastronomic delights that mix years of history. To taste these dishes in the best places, not necessarily the most touristic, is a delight; but you're a VIP guest, so why not put on an apron and cook by their side? The casual also has its enchantment, so prepare your palate for an extravagant parade for the entirety of your stay.

YOU DON'T DESCRIBE MOROCCO
YOU LIVE IT

All of your senses play to keep the best memories and experiences of Morocco: the natural landscapes that dazzle your sight, the buildings, the colors, the shapes, beautiful endings even on places that could go unnoticed. Unforgettable smells, textures, music, people, silence...Don't be a spectator, give yourself the opportunity to experiment! The biggest wealth of this country can't be described, it must be felt. **There are many reasons why UNESCO declares Morocco an Intangible Cultural Heritage, and that cannot be taken home as a souvenir.**

1001 nights in the Sahara

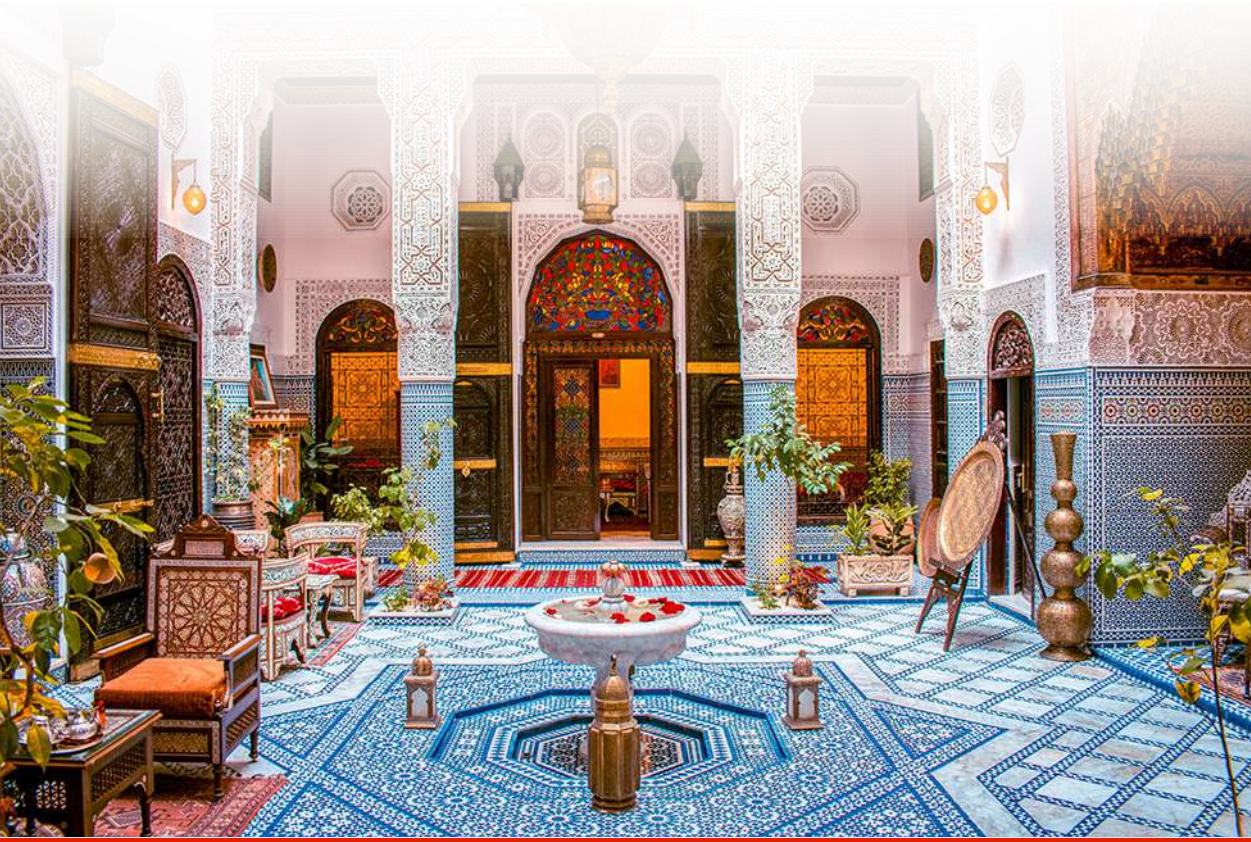

Our recommendations for accommodation are diverse, but they all have something in common:

**They are spectacular and
delicately refined.**

Riads

Palaces turned into big-named hotels that count with a privileged location and unique and distinctive architecture, so you don't lose yourself from the environment that you're submerged in. Feel the Moroccan hospitality with a personal welcoming, let the staff attend to your needs with discretion, enjoy the exclusivity of your suite, and put yourself in the hands of expert therapists while relaxing on a majestic hammam.

Looking for something even more surreal?

Escape the real world and spend the night under the stary night, next to a bonfire, in a luxurious tent in the middle of the Sahara. Fell like you're in a 1001 nights tale!

You've got the last word!

In Morocco there is so much to do and see that it looks like it happens on purpose, just to make you come back. Do it, you're home! The immersion in the imperial cities: Marrakesh, Fez, Meknes, and Rabat is the beginning to warm up the engines.

Cities so loaded with history, culture, and singularity that you will see yourself having conversations with very interesting characters. There are many more locations with a special enchantment, museums, mosques, palaces, souks... Your camera won't have a break! Of course, Casablanca also waits for you. Not only for the traditional fame from the movies that travelers look for, but for the impressive mosque of Hassan II. You can't miss it. Maybe what you're looking for is a little adrenaline: practice extreme sports either at the beach or on the desert, or take your time playing golf in one of the exclusive fields that attract so many lovers of the sport. A visit to the production of argan oil, famous all over the world, will call the attention of the most curious of travelers.

Anyway, how to decide what is the best way of traveling if each one has characteristics that distinguish it and make it unique? Let NUBA show you every single corner and then: you've got the last word!
