The best of two worlds

Istanbul welcomes you with a new airport: enormous, modern, and impacting. And you're just arriving! There's nothing better than getting a Turkish bath in one of the Hamams to rest from a long airplane trip; then, you will be ready to visit everything you need to see in a vibrant city like this one.

It would be a mistake not to see the impressive mosques, or to not visit the majesty of the Topkapi palace. But don't stop there – contrast your experience by strolling through Bebek, Ortakoy or Nisantasi so you can get a feel of the urban life and eat in one of the trendy restaurants in these neighborhoods.

Don't forget to delight your sight by sailing down the Bosphorus at sundown, and keep your senses aware when you visit the Gran Bazar, which will conquer you with its rainbow of colors and aromas that you will never forget.

Residence of kings

The hospitality is part of the experience, and in NUBA we know what's the best accommodation for you. In a place with so much enchantment, feeling like a king is inevitable, so don't be surprised if your hotel has a beach with sand brought from white marbled Turkish places.

Bodrum unites beach, gastronomy, history, and an attractive nightlife. Dive, practice windsurf, and enjoy the beautiful landscape while on a sailboat going down the Turkish coast of the Aegean sea; live the party life that awakens every night; taste the mix of cultures that distinguishes the port, from the most exclusive to the most local restaurant; soak yourself with the history that permeates the city. Bodrum has it all.

A surreal experience

In NUBA we know that the best way to get to know the enchantment of this place is from several feet of altitude. Here, the peculiar rocky creations form beautiful chimneys that turn this place into a Patrimony of Humanity.

Overflying this place on a hot air balloon at dawn will be a surreal experience that you will never forget, and walking it by foot will confirm the magic. Have you already hopped onto the balloon? What do you think about enjoying the break of dawn on a warm pool, hypnotized by the spectacle of hundreds of hot air balloons painting the sky?

We can't break down everything that makes up Turkey, as it is equally impossible not to see the footprint of history in each place.

It's not in vain that this country was the host of two of the seven wonders of the old world. Let us take you also to Izmir, an European city with an unique enchantment: Ephesus, where you can see Virgin Mary's house, the impressive ruins of the Library of Celsus, and Göbekli Tepe, an archeological site discovered recently with interesting findings about the history of humanity.

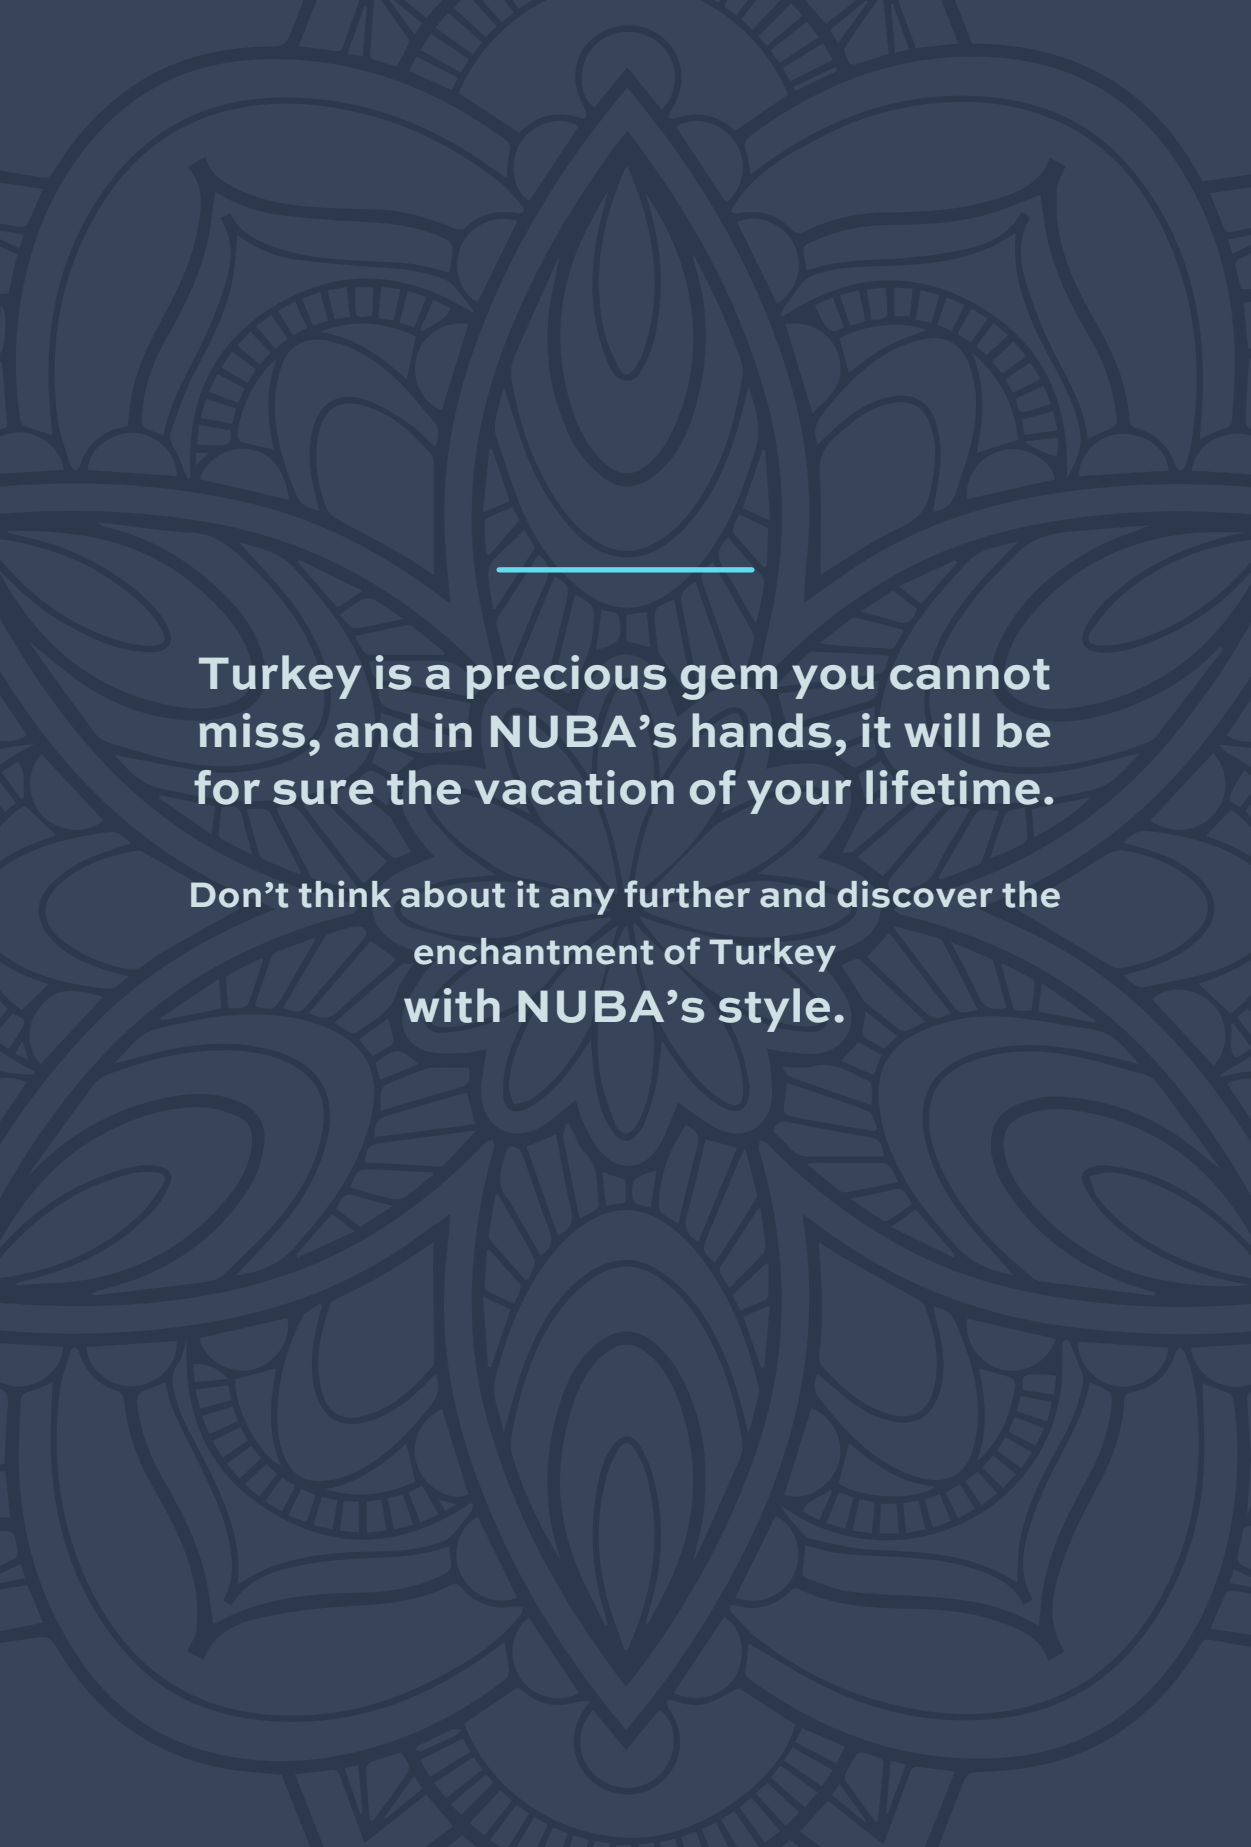

Shall we continue?

Take a break from your diet and taste everything! Kebabs, rice with nuts, meats and vegetables, pistachio and pine nut desserts covered with honey, menemen for breakfast with a side of Turkish bread stuffed with feta cheese and spinach, Turkish tea that is ready to drink anytime and anywhere, figs, olives, jocoque, and a large etcetera list. The fresh products of this country are delicious, without even mentioning its excellent quality. If you're interested in the authentic Turkish food, NUBA will take you to the best places, many in which you won't see any tourists other than yourself!

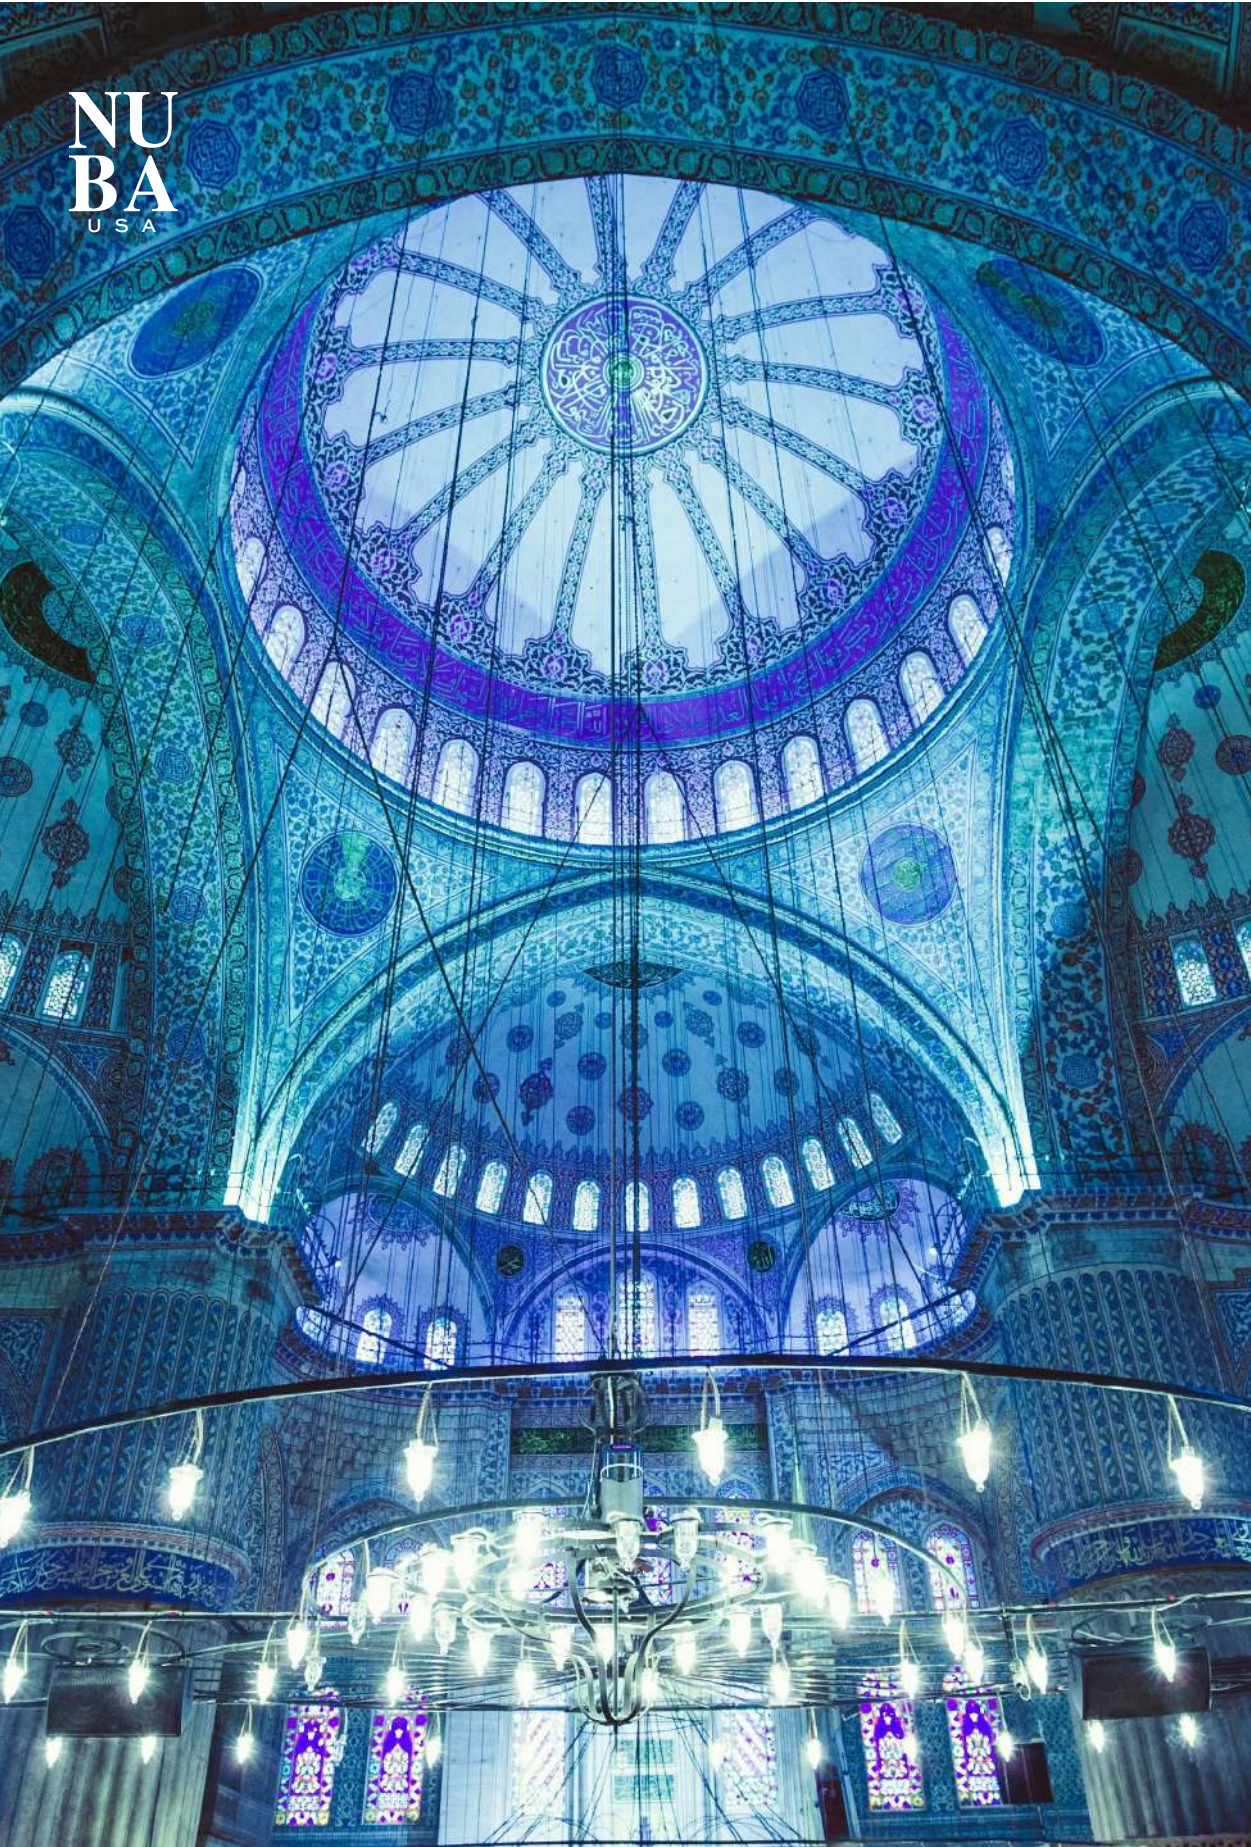

Turkey is a precious gem you cannot miss, and in NUBA's hands, it will be for sure the vacation of your lifetime.

Don't think about it any further and discover the enchantment of Turkey with NUBA's style.
