EXPERIENCE

The Ultimate Amazon
River Experience

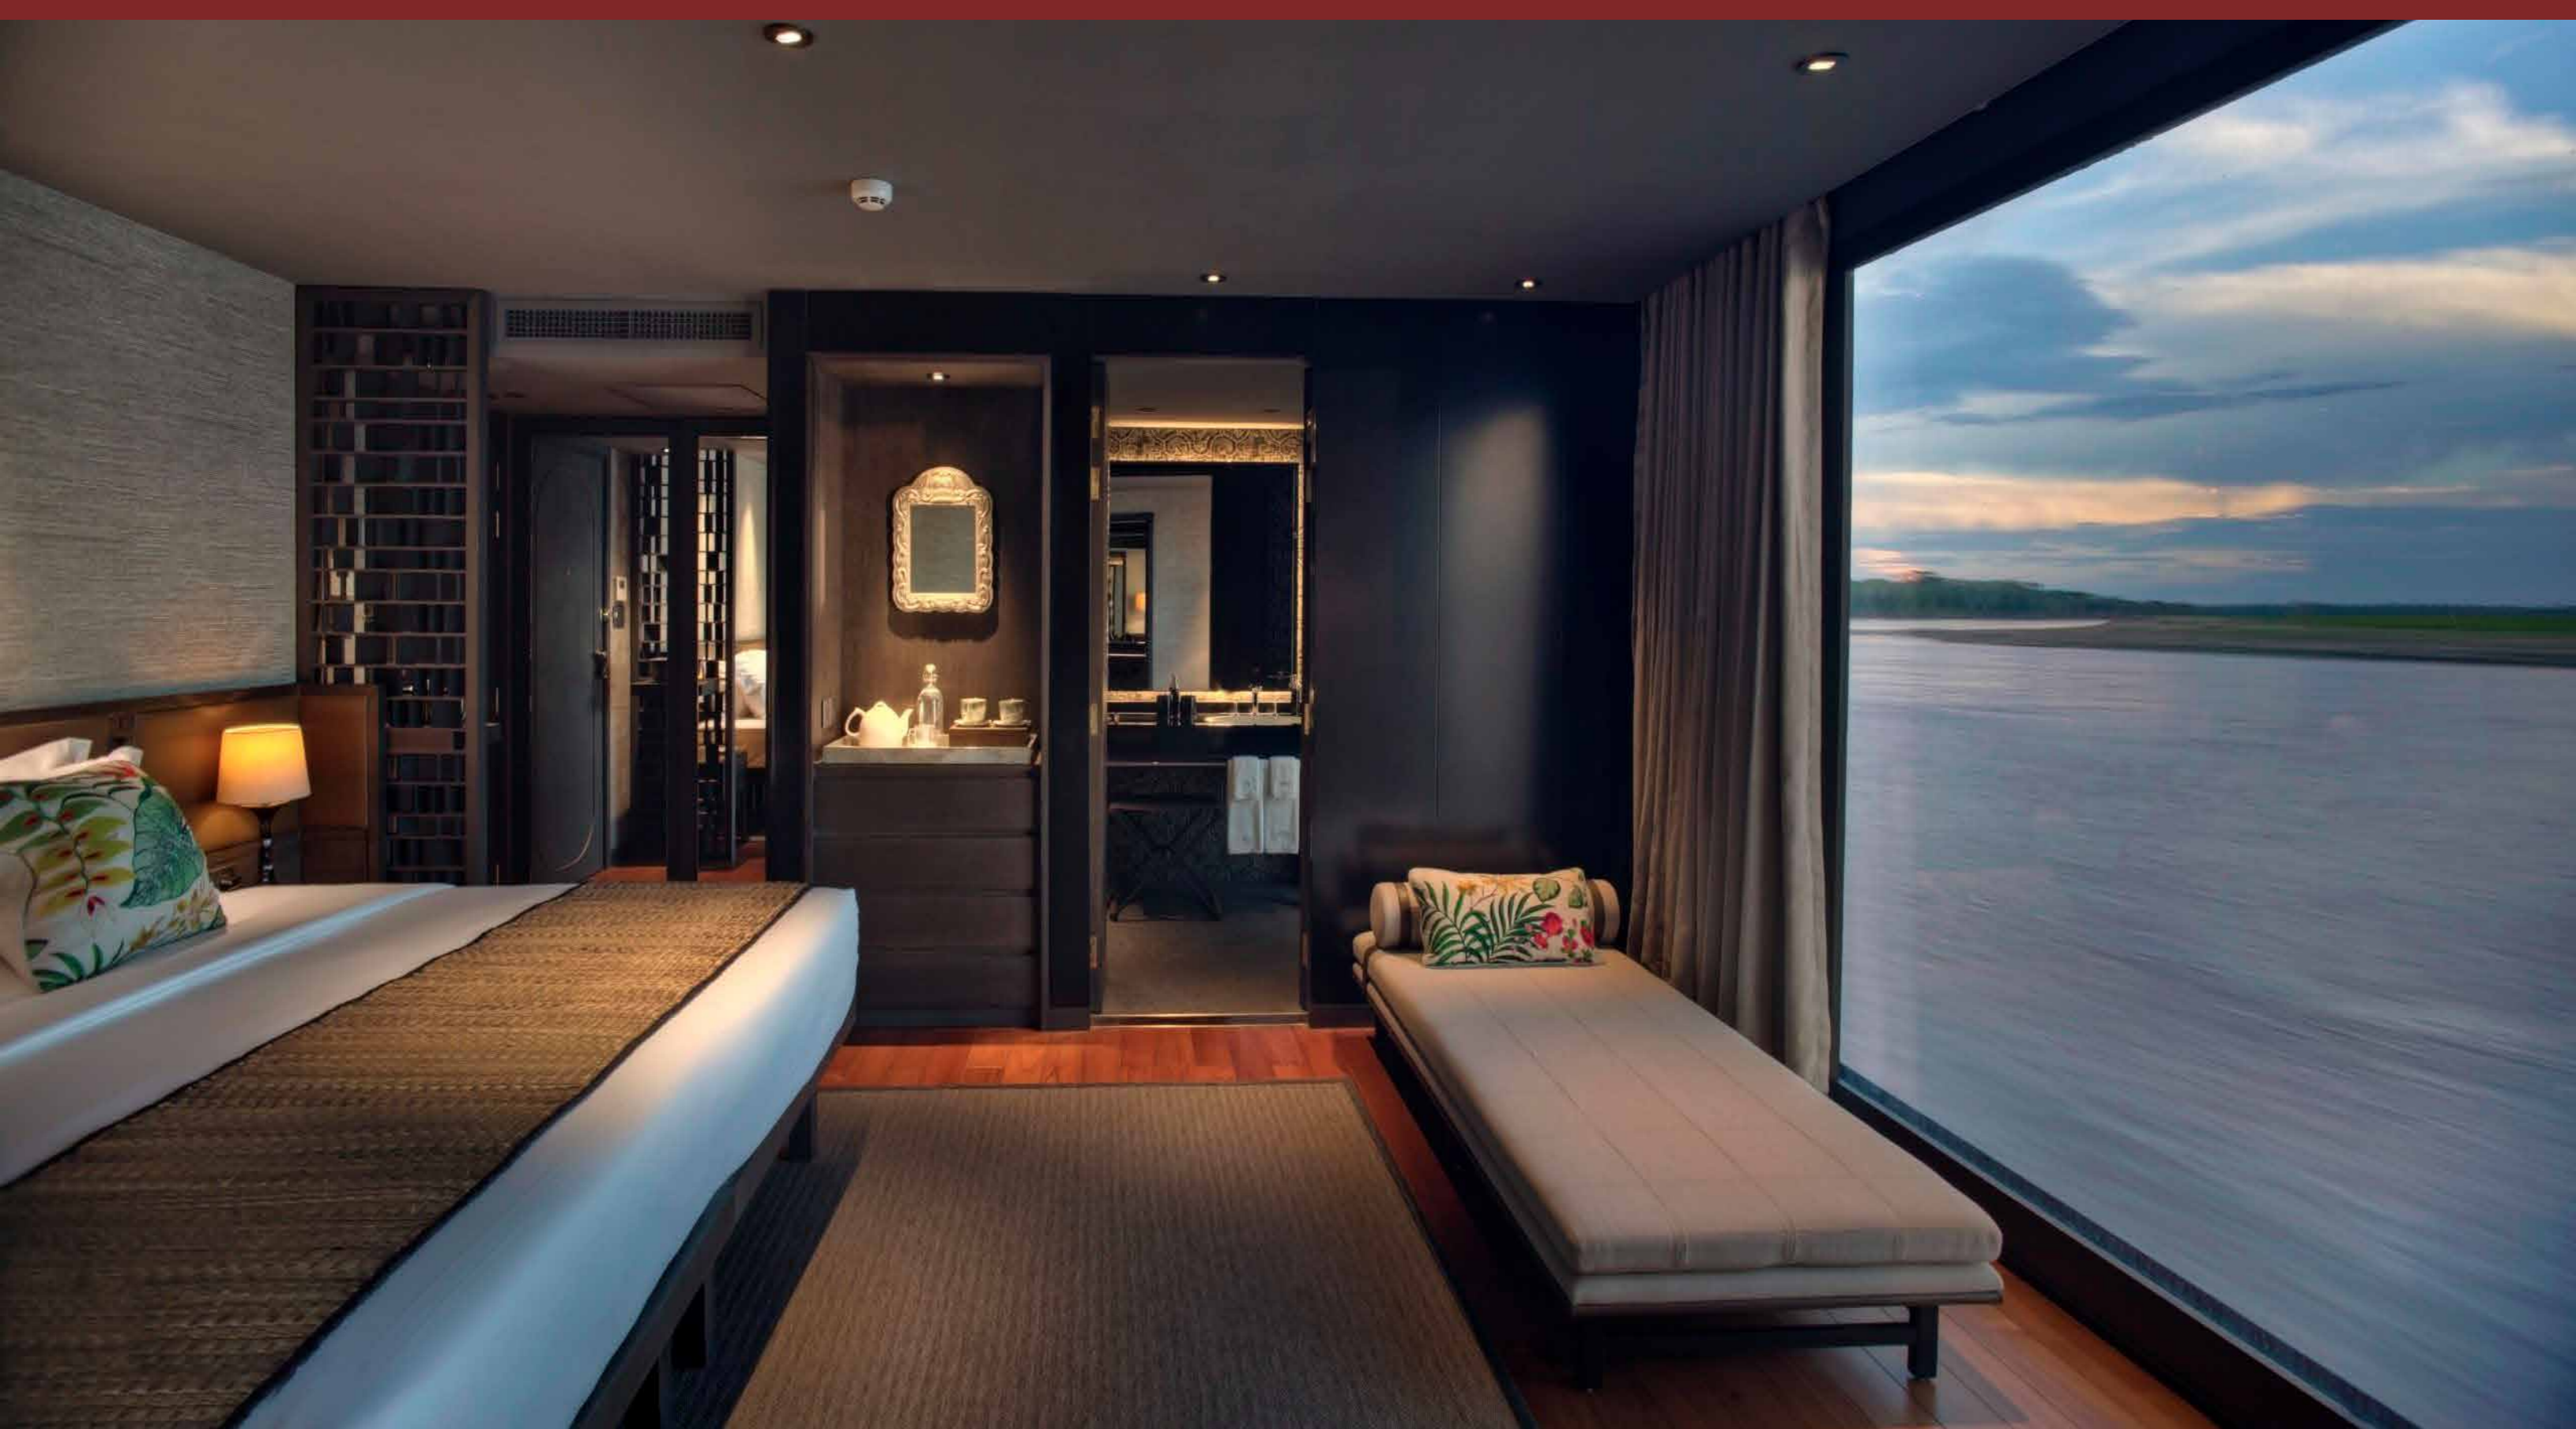

NUBA Now Offers The Ultimate Amazon River Experience

The Aqua Nera, the newest cruise ship from Aqua Expeditions, has raised the bar when it comes to cruising the Amazon. Dive deep into adventure within the planet's largest tropical rainforest—and aboard a boutique vessel that's a sensation for its innovative design. The experience is luxury adventure at its very best.

Dazzling Design

The Aqua Nera takes its design inspiration from the Peruvian Amazon's mystic "black water" lakes and lagoons.

Prizewinning architects from Noor Design were charged with lending something lively to every corner of the new ship. Twenty huge suites transmit the Amazon's peaceful sensations, with common areas that evince refined chic alongside something edgy indeed.

Explore Peruvian Amazon Biodiversity

Home to the largest botanical abundance on the entire planet—as well as more than one-third of all known wildlife species—means life aboard the Aqua Nera is every adventurer’s dream.

Veteran naturalist guides, from the local area, take you deep into the birthplace of life itself, traversing challenging landscapes and helping you spot wildlife in environments Mother Nature designed to protect her most precious and seductive creatures. Excursions are limited to ten participants only and a fleet of private motorboats—custom-built and crewed—guarantees each adventure’s “creature comforts.”

An Experience Like No Other, Anywhere, Aboard The Aqua Nera

Find yourself awash in one-of-a-kind experiences and expeditions, in everything from kayaking, angling for piranhas or taking a dip in the Amazon region's most breathtaking natural pools. Then relax with a massage, or just chill by the outdoor pool, to revel before the rainforest's exuberant landscape. Not least of all, passengers enjoy the finest Peruvian cuisine, choosing from a wide-ranging menu by celebrity chef Pedro Miguel Schiaffino, one of Peru's biggest cooking stars.
