

WHITE DESERT

Join us on an incredible adventure to one of nature's most amazing places:

an immense colony home to 28,000 emperor penguins.

Our ability to access the colony early in the season means you'll see the adorable penguin chicks just as they start to walk and move on from the protecting warmth of their parents' feet.

Being part of this moment means getting up close to wildlife at its wildest!

Arriving by private Jetstream aircraft, you'll settle into our luxury campground that sits beneath magnificent ice falls.

An exclusive maximum of only twelve explorers means the outing adapts to the personalized adventure you're craving.
