A trail walk alongside the river will take you past rice fields and a holy site where we will stop to make an offering, to a tranquil location accessible only by foot and exclusive to Four Seasons guests.

MEGIBUNG

(Min 10 pax, on reservation)

Inspired by an ancient ritual dating back to 1692 when the King of Karangasem implemented communal dining to strengthen unity amongst his soldiers, the Four Seasons megibung dinner has been adapted for your convenience and comfort while symbolizing the same sense of togetherness and community.

Sit under the stars at our private riverside deck with live cooking by our chefs using traditional cooking techniques including wood-fired stove and steamer, bamboo, stone grinder and claypot

YOGA & MEDITATION

CHAKRA YOGA

Inspired by Balinese philosophy, the wellness programme at Sayan emphasizes the flow from Niskala to Sekala (from the inside-out, the spiritual 'unseen' energy to the physical or 'seen').

Central to this is restoring balance and harmony to our seven key chakras, or energy centres, that run along the spinal column. For maximum benefits, we encourage to complement your Chakra Yoga class with the corresponding Chakra Ceremony full body spa treatment. A serene purifying space for individuals or couples.

BALINESE *HEALER*

Djik Dewa is a gifted healer specializing in Kundalini energy. He acts as a priest in his family shrine and is entirely devoted to helping others. Working with sensitivity, energy work and occasional touch, each individual session sees him scanning the body, facilitating the re-activation and balancing of each of the main seven chakras in succession. His humble and sincere presence in every session allows great healing.

NATURE

CAN YOU KEEP *A SECRET?*

In this day and age of social media, Bali's most famous temples and historical sites are often crowded. Yet the island offers many inspiring sites that are not yet on the 'radar', and we would like to keep it that way. If you agree to keep it secret, our guide will take you back in time with a trip to a nearby yet untouched rice farming village. Visit an enormous sacred banyan tree and a preserved historic house to learn about Balinese architecture, and then a secluded water temple.

Here, you can bathe in the holy springs and participate in a melukat ritual, where you will make an offering and be blessed by the village priest.

Return to the resort invigorated with the renewed hope that not all the best places have already been discovered.

PRIVATE *RAFTING*

Marvel at the natural beauty of the sacred Ayung River and gain insights into Bali's vibrant culture along the way with our guided rafting experience. Enjoy the scenic journey through the river valley's wilderness dotted with virgin jungle, rice terraces and towering trees, and keep an eye out for local wildlife. Finally, you will make a riverside landing directly at Four Seasons Sayan, exhilarated as you receive a warm welcome back 'home'.

Enhance your check-in experience with Arrival by River Raft in Bali Twice the Magic package.

A DAY IN THE LIFE OF A BALINESE *FARMER*

Take in the view of the pure emerald green of Bali's rice fields. We'll guide you to where you can help farmers plant rice, then to a spa villa for a cleansing and relaxing ritual, followed by a traditional farmers' lunch by the river.
