TORTUGA BAY
PUNTACANA

Our Heritage

Founded by the Rainieri family in 2005, Tortuga Bay was the first luxury hotel in the destination, and the only one designed by the renowned Oscar de la Renta, who took pride in living in Punta Cana for the last 20 years of his distinguished life. The property underwent a renovation process in 2017, designed and overseen by prominent American designer Markham Roberts, with the primary goal of evolving the hospitality experience originally envisioned by Oscar de la Renta.

Nowadays, Tortuga Bay is the only Leading Hotel of the World in the island, providing a AAA Five-Diamond and Four Star by Forbes Travel Guide personalized service; and part of the main luxury consortias in the world.
