SUSTAINABILITY

# Commitment to the environment

Our sustainable hotel has implemented several initiatives to promote responsible consumption and resource conservation. In line with Anantara's groupwide effort, we've replaced plastic straws with biodegradable alternatives and phased out plastic water bottles in favor of refillable amenities. Food waste is converted into biogas for our team members' canteen, and water for laundry is solar-heated. Our solar panel system significantly reduces our carbon footprint while maintaining high guest standards. Additionally, our elephant camp team regularly cleans the Ruak River, and used cooking oil is repurposed into diesel fuel.

SUSTAINABILITY
