The Essence of Every Stay

Space, Privacy & Exclusivity

Suites and villas are crafted for guests who value true tranquillity and the comfort of a secluded retreat, ideal for couples, families, and discreet VIP travelers seeking an effortless sense of escape.

Discreet, High-Touch Service

A dedicated team delivers warm, intuitive hospitality, anticipating needs with authenticity and subtlety so each stay feels entirely personal.

Architectural Harmony & Sense of Place

Cali is thoughtfully carved into the cliffside, using natural stone, organic textures, and refined simplicity to honor and elevate the surrounding Aegean landscape.

An Elevated Culinary Journey

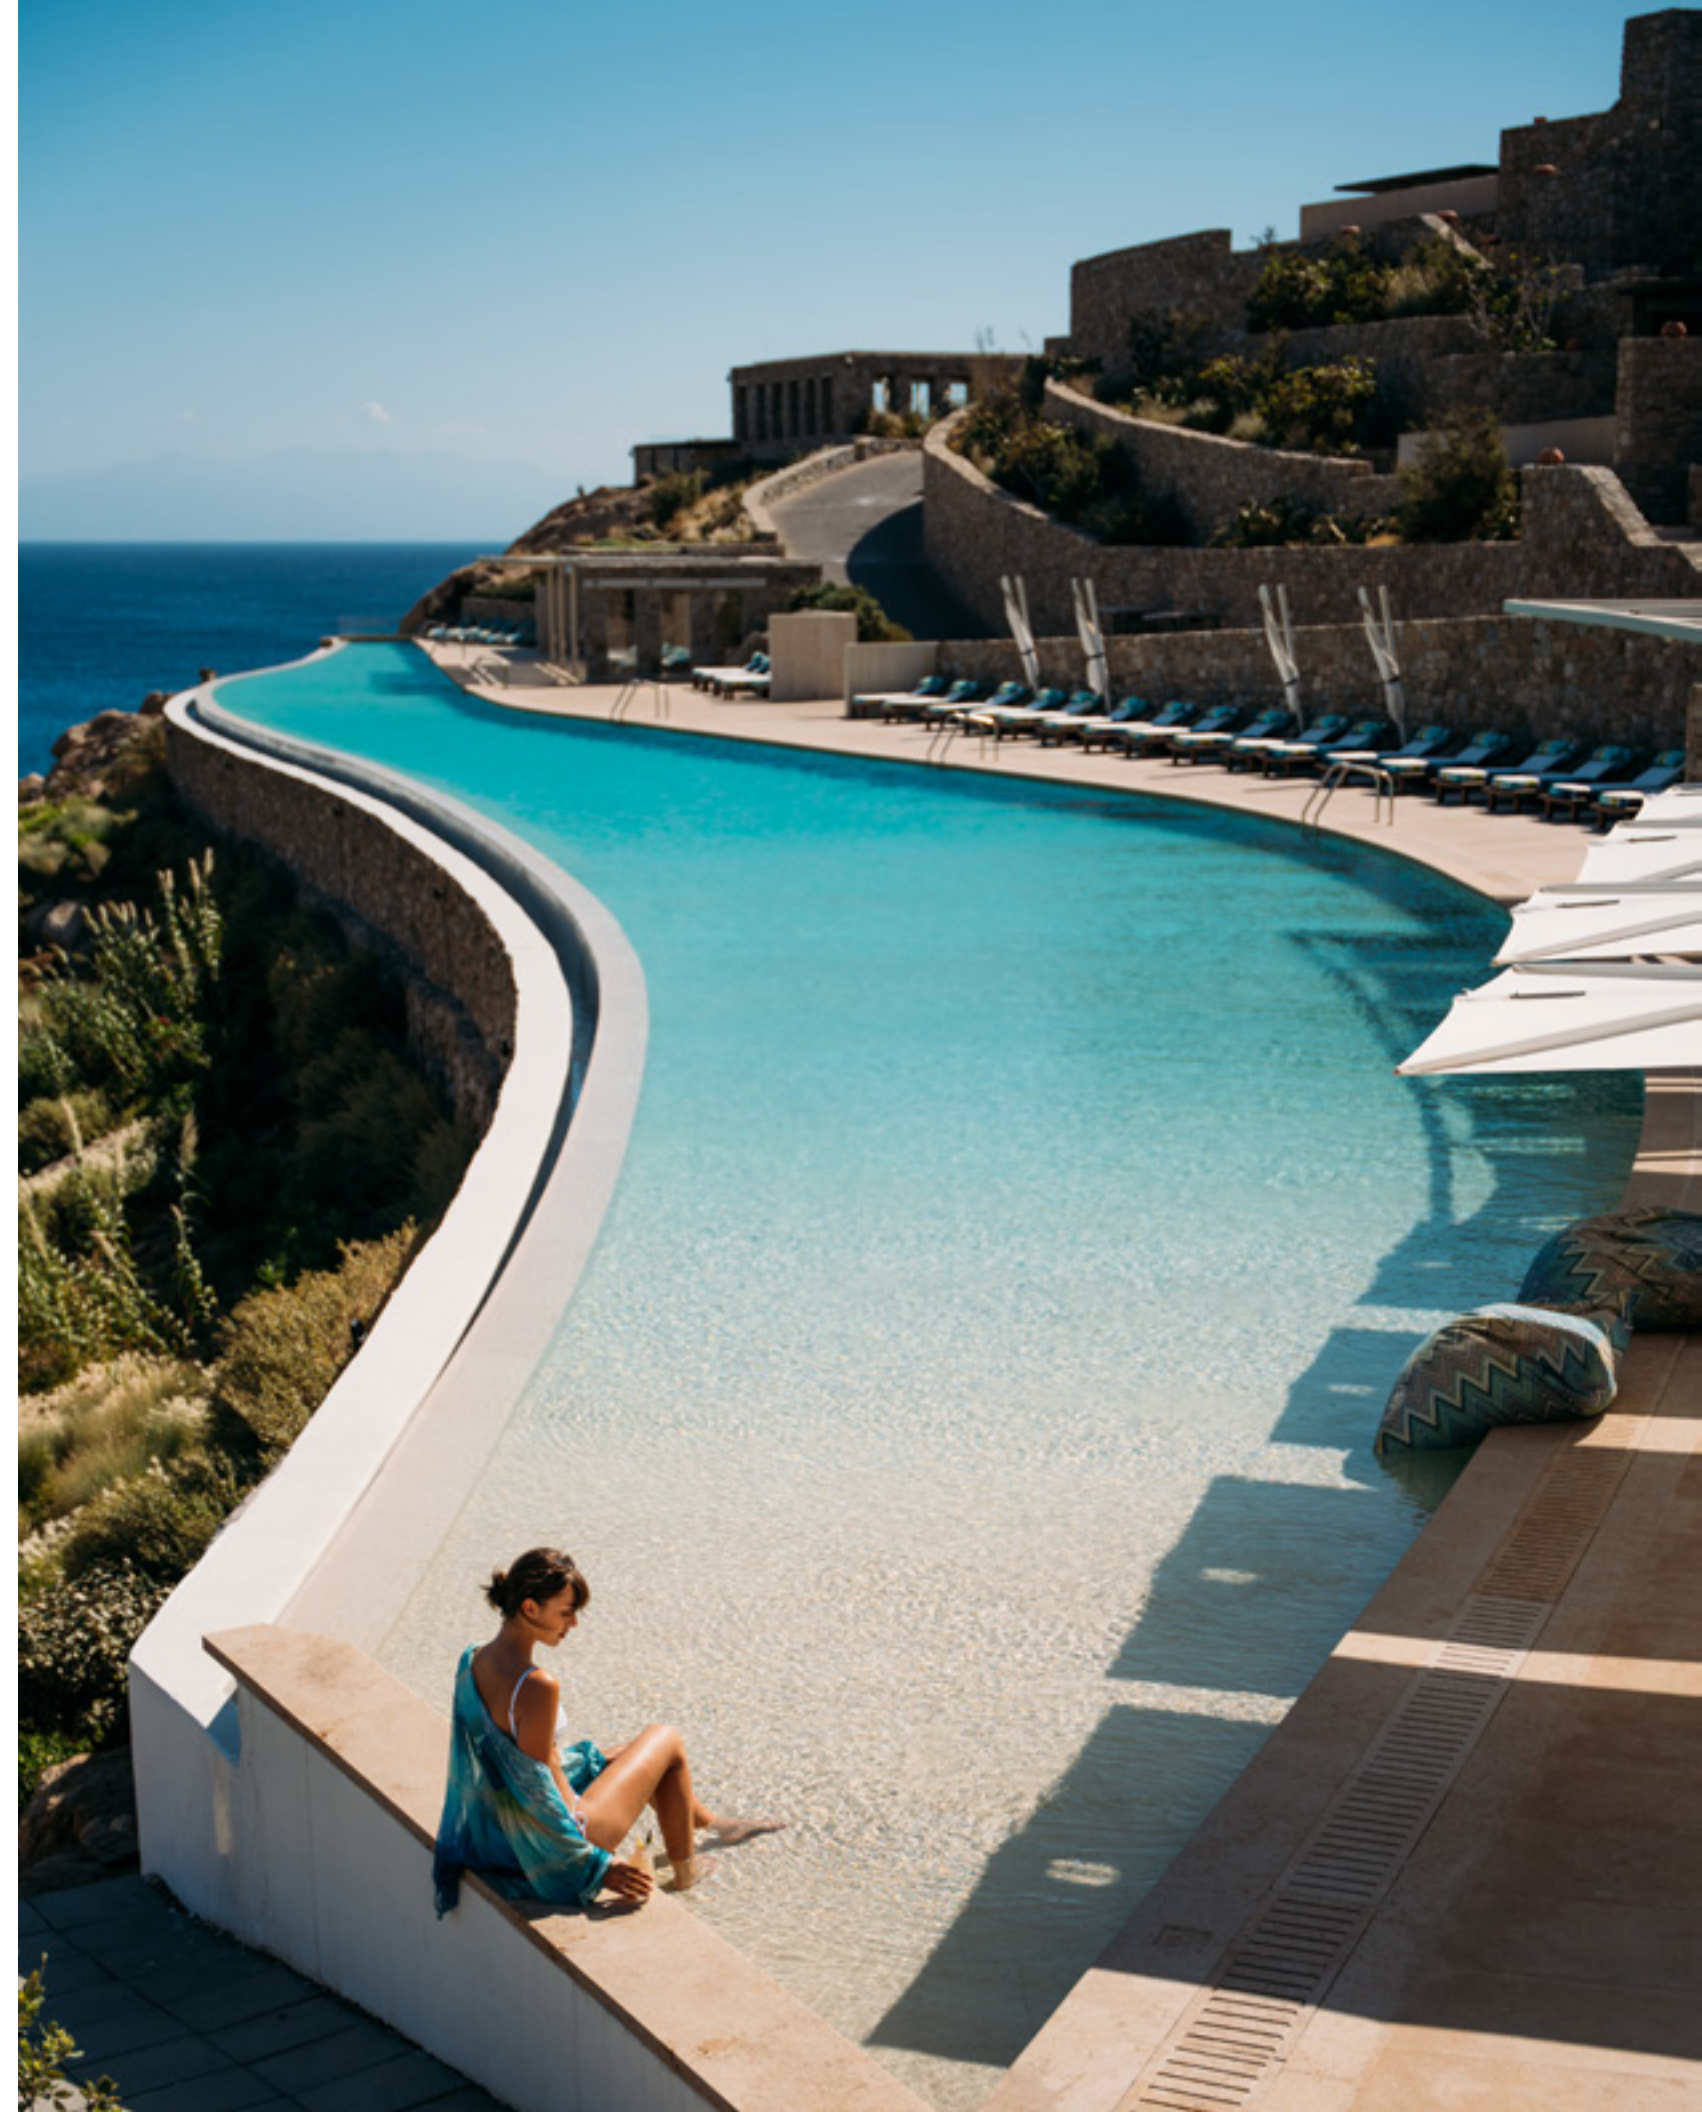

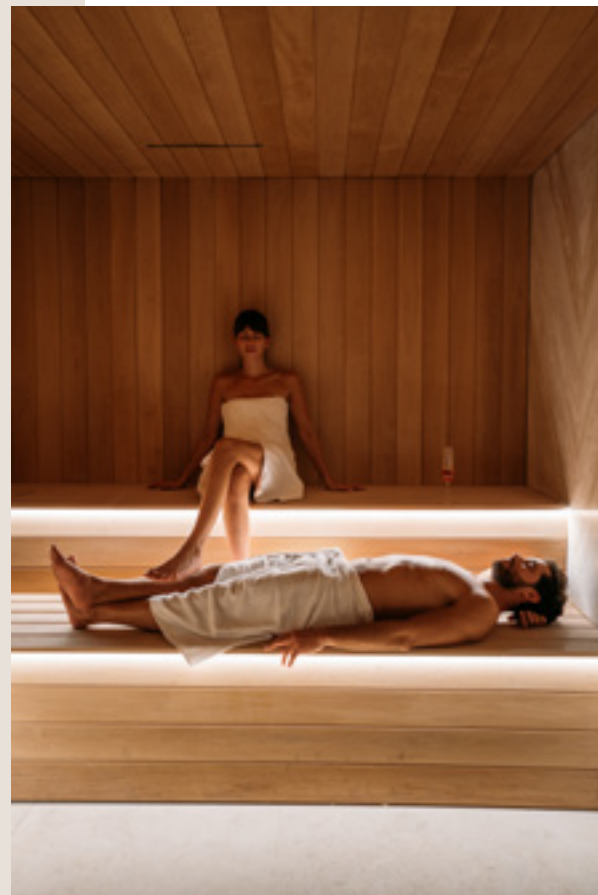

The culinary program celebrates modern Greek flavors, local ingredients, and shared moments, whether at the restaurant, through in-villa dining, private chef experiences, or curated events.

A Setting for Meaningful Gatherings

Spacious multi-bedroom villas and expansive outdoor areas create the perfect backdrop for multigenerational escapes, milestone celebrations, intimate events, and extended stays.

Cliffside Calm & Wellness

Cali's serene setting inspires a sense of calm and clarity. Sunrise rituals, bespoke wellness treatments, and curated holistic experiences encourage guests to reconnect with nature, themselves, and with one another.

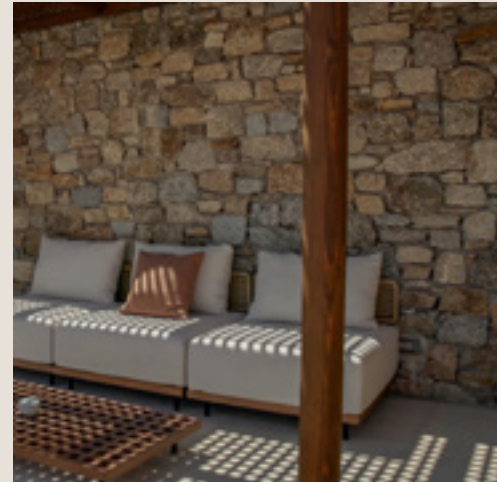

Accommodations

Every suite and villa is thoughtfully crafted to feel like a private retreat, complete with expansive terraces, saltwater pools, and unobstructed sea views.

Sustainability

Preserving the Island for Future Generations

Respect for the Landscape

Architecture carved into the natural cliff to minimize environmental impact.

Roof planting and natural insulation materials help the property blend seamlessly into the terrain and reduce heat absorption.

Built with locally sourced stone to honor Cycladic heritage and reduce transport footprint.

Resource-Conscious Systems

Seawater swimming pools significantly reduce freshwater consumption.

Solar panels support clean energy use throughout the season.

Energy-efficient systems ensure reduced operational impact without compromising comfort.

Low-Impact Operations

Electric golf carts provide quiet, emission-free guest transportation across the property.

Water conservation and responsible irrigation practices protect the island's natural resources.

Comprehensive waste reduction and recycling programs across all departments.

WELL Gold Certified

Recognition for excellence in air and water quality, natural light, and wellness-supportive design.

Spaces created to enhance guest wellbeing, with a focus on nature, balance, and harmony.
